Packaging

Get premium cardboard  
packaging solution and materials  
online

Giving new meanings to packaging, specifically **premium cardboard packaging**, and catering to all types and sectors of the economy, Polycart is based in Sofia, Bulgaria and it offers packaging solutions to different countries in the EU. Generally at Polycart, items are supplied only after orders, but this company stocks some small quantities of generic products on its shelves for the benefit of its customers. Specializing in paper, carton, plastic and corrugated packaging, Polycart caters to every customer's needs and the rates of this company are quite reasonable in the European Union.

Further, Polycart works in partnership on a contract basis with other companies in the textile, electronics, jewellery, food, pharmacy, drinks, parts and related industries to offer premium luxury packaging solutions. To sum it up, if it is cardboard, synthetic, self-adhesives, cover and corrugated materials, and printed and plain packaging items you are looking for in the EU and beyond, then you can be assured that Polycart is the best place you should try. We also accept samples of products, like different arrays of premium cardboard packaging that you want us to make for you within your desired price range, for this helps us to meet your needs in the best possible manner.

## **You have tried our *premium cardboard packaging*, now know what drives us**

In all the years of our functioning, we have understood the importance of our customers, and in serving them, all our departments like Sales, Production, Customer Service, Production, Accounting and Administration etc goes all out in making these customers' experience with us as enriching as possible and we believe, they are satisfied with our products and services to the utmost. It will be noteworthy to mention that our every staff, from a Customer Service Representative to the Production Supervisor, works tirelessly to see that orders are produced and shipped on schedule and in the way our customers want them, and in all our working quality is never compromised.

If today Polycart is riding on the path of unprecedented success, much of the credit goes to our workforces about whom something has been said before, and this staffs are always imbued with the belief that in all their workings, along with their benefit, the benefit of the company is a priority. We take pains to ensure a pleasant working environment and good interpersonal communication for these workers and we always hire the best of them, with suitably rewarding outstanding achievements.

Being a company that never compromises on technology, efforts are always made to work with the best and latest equipment and our production facility always adheres to efficient and cost-effective procedures.

Manufacturing standard sized products is not a problem for us but catering to custom orders is our precedence for the real challenges lays in them. If our customers need special papers of different sizes or new features we are all too happy to make these out for them.

In the coming years, we aim to achieve 20% growth each year and bring out more innovation in our production of paper, corrugated, plastic and carbon packaging, and be the best as regards price, service and delivery. We also endeavor to explore new products and markets in these future times, being not satisfied with only products like premium cardboard packaging, thereby bringing into our fold more number of customers.
