1.1 patch Hi friends, back again with a new video, this time we have release our custom1.3 map CF1\_Lilangtagalog version 1.1. 1.3 patch released and we have also tagged this version with v1.0 since this version is the first version. For those who dont know about version tag here are the info v1.0 version is the first version released, its the version where we started creating a tagalog version and v1.1 the tagalog version version for CF1\_Lilangtagalog. v1.2 version is the pre-release version but we only released to our players. v1.3 is our public release. Thanks for watching and hope you like this video, remember to subscribe for more youtube videos we released this patch for our clients, so here are the info about the patch, 1.3 patch Where Updates New and changed features Minor fixes Read this before you update 1.3 patch is now a public release, for those who are not interested about the release read this, this patch will only work if you have our tagalog version New and changed features: New: Players can now use all weapons and melee weapons if they meet the required stock. When the player is using only the pistols they will no longer use two sub-pistols. Players can now use the sub-pistols of the gauss and the kontum. When the player uses all ammo he will no longer use a cigar butt. Players can now use a dynamite after the player has no more ammo. The flashing aim light when the player enters the aim mode is now only displayed if he has a cigar butt. Now you can find a cigar butt and a cigar butt in the right top corner. You can now adjust the speed of the scrolling gun when the player is in the aim mode. When the player enters the aim mode now the aim mode is displayed for 3 seconds. When the player is in the aim mode now the aim mode is displayed on the left side of the player. The right side of the aim mode is now covered with a black line to separate it from the guns view. On the right
