If you are fan of online services like Neogo, an online Wikipedia-based encyclopedia, you are probably also a fan of Wikipedia itself. The online encyclopedia is powered by free, open source software and anyone can edit. But can you edit an entire encyclopaedia? Most online encyclopaedia tools offer an option to create an article that can be published online. But you can't just start writing about any topic, because that is clearly against the open nature of Wikipedia. So Wikipedia offers a blank article option. You can write about any topic, but it has to be a decent article. Imagine you were asked to write a famous person who you aren't very familiar with. What would you say in the first lines? "Henri de Toulouse Lautrec is a painter whose works were popular during the Belle Époque period. Lautrec was born and died in Paris and is best remembered as a patron of a group of artists and writers known as the French Blue Rose." This is what you would say, but it is not good enough because it doesn't even give a mention of the best Belgian painter. But what about this: "Justus Thorbecke was a Dutch painter who became professor of art at the Academie in Amsterdam. His painting style was influenced by Pieter de Hooch." This is better because it mentions a famous painter and is more detailed. But this is still not quite what Wikipedia offers. But what about this: "At the outset of World War I, someone blew up the Berlin Stock Exchange. This was a huge monetary loss for German marks, which meant that everyone felt the pinch: women could no longer afford so many expensive beautiful dresses, business people had to carry a bigger load, and the stock exchange itself had to be rebuilt. The damaged Deutsche Börse building was rebuilt within a year, and was finished on 21 May 1916. \* Added resources:\* Deutsche-Börse-Wirtschaft 1933 Berlin: Das Börse-Tower" This is what Wikipedia offers, and this is a really good description. But what about something like this: "Picture:Isaac &#169 Distance: 85 &#169 Width: 128 &#169 Height: 128 &#169 Format:.jpg &#169 Original size: 512 &#169 Resolution: n/a &#169 Upload date: 31/04/2012 &#
