Alhamdulillah. Al Quran (Tafsir and Words) is a Quran study tool available to everyone. It provides sound playback verse by verse with repeat functions, Tafsir Ibn Kathir...etc. Books in Arabic and other languages such as Bible, Gospels, Quran, Torah, Book of Jibril, Holy Quran, Gospel, Gospels and more books available on the Internet, in bookstores and on bookshelves can be easily read and understood by both native Arabic speakers and speakers of other languages. This is one of the reasons why I prefer the Quran to Mukhtasar as I can read it in any language I want and I can easily save them at any time.
