The author introduces the "little heroes" who, thanks to their ingenuity and diligence, managed to achieve success in life. It also reveals the complex issues of a moral nature, which, no doubt, occupy and disturb many people. The idea in the book is based on real events that happened to famous people: Ms. Shirley Fuller from the same story, many famous American figures, including the president and congressman, as well as stories about the conspiracy associated with the sale of Alaska and much more. The story provides a masterful analysis of the causes of the major economic crisis in America in 1886, and as an "addition" to the main storyline, it contains Shirl Full's memories of the events leading up to the sale of Alaska. The book is of interest to a wide range of readers, especially young people. According to the author, "in history there is not a single event created by the imagination or invented." For a wide range of people interested in history, and especially the history of America.
