Patterns of upper extremity involvement in children with acute lymphoblastic leukemia. The purpose of this study was to analyze patterns of upper extremity involvement in children with acute lymphoblastic leukemia (ALL) by using the International Classification of Diseases for Oncology, Third Edition, codes for lymphoma and other leukemias. The analysis was performed on the patients treated at the Regina Elena National Cancer Institute, who were treated between 2003 and 2014. Information regarding patient and disease characteristics, treatments, and clinical outcomes was collected. The majority of the patients were male (61.5%) and had a B-cell precursor (BCP)-ALL phenotype (61.3%). Upper extremity involvement was observed in 32.7% of the patients. We found a

I cannot play or download any videos in the market place. So I am not able to upload any videos there. Reviews From Our Users Post a Review Original review: Jan 11, 2014 Envato is the best site to get and share your pictures/videos/music/software/etc. with others. Envato also provides us with paid and free services. Recently I used the Envato for the first time and I felt great. I wish that this site had been there during my college life so that I could have shared my life's best time with other people. I am recommending the whole website to everyone. Original review: Nov 11, 2013 The first thing that impressed me is that this website provides us lots of freebies. They have a lot of tools and also provides us with paid services. I think I will never get tired of using this website.Q: Matching hyphens with wildcard "star" I'm trying to get a set of items that match certain terms using MongoDB 3.0, but I can't figure out the right regex to use. I want to match items with a hyphen in them like this: \$0.001 \$99 \$00.98 \$0.1 \$-2.55 In this case, the regex needs to match every item that starts with \$, has a numeric amount of digits following it, and the last number is less than 1. I've tried various combinations with hyphens, asterisks, escaping and slashes, but I can't find anything that works. I'm trying to use this regex: `$(\d`
