Annotations can be assigned a custom color and be labeled or linked to. Toolbars can be assigned to the annotation interface. Annotation groups can be created. Annotation groups can be used as layers and share settings with other annotation layers. Export to PDF and print to PDF documents can be generated by drawing an annotation on a layer. Annotations can be pinned to layers. Multi-user editing: Edit an object and use the latest change from a shared drawing. Edit with someone else's drawing and see the changes appear as they occur. For the first time, AutoCAD LT supports multi-user editing. To use multi-user editing, you need to log in to a shared drawing account. Use the Mobile Tools to create digital signatures that are linked to the drawing account. View and edit reports on engineering drawings by using the Report Wizard in a shared drawing. The image-related functions and existing functions have been enhanced for efficiency and consistency. Use the drawing-context menu to turn objects on and
