MC-808 Editor was created as an easy-to-use and accessible tool that allows you to edit MC-808 parameters directly from your computer. Now, you can use this reliable and user-friendly piece of software to edit all the settings with ease. The product is fully equipped with all needed features like: ✓ Editing functions for parameters LFO, loops, presets, LFO play mode (sequential, random, track) and LFO types (FM, FFS, AM, etc) ✓ MIDI controller support with 16 MIDI CCs with the possibility to send notes and control all MC-808 Editor features ✓ You can

choose the parts of the file to load into the sequencer and to import from any external source - this includes loops, templates, presets, etc. ✓ You can load files into the sequencer for editing in three modes. The MC-808 Editor sequencer is divided into three main sections: sequencer panel (routines, tracks, effects and other details), editor panel (parameters) and the main control panel. ✓ Editing is performed directly in the editor panel. There are over 700 Sounds. The sample rate of the loops can be selected freely. MIDI CCs (controllers) can be set in 16 steps. 128, 33, or 64 tempo steps. All tracks can be synchronized with the MIDI clock. The

MC-808 Editor-format is a simple format, it's easy to edit, easy to send parameters to other softwares and import the edited sound back into your MC-808 files. MC-808 Editor - User Guide: The drum sequencer is a very powerful tool. It has two views: a classic view with columns and a 3D view. The first column contains presets, each of which is made up of many loops. You can edit these loops and change the tempo, add effects, etc. The second column can be turned on and off, it shows the notes. You can connect a MIDI controller to this column to control the notes. The notes are displayed as the MIDI CC values of the

parameters or MIDI note on/off values. The tempo steps can be displayed in a combo box. At each selected tempo step, a tempo marker appears in the MIDI sequence window. Each row has a row number for each loop. Clicking on a loop number will edit this loop. New: There are now two buttons in
