Hooked on Pho | The only AIM client you'll ever need | rdfy - What's a hookup? - Hookup: - A date, but is usually used to refer to a sexual encounter: - "I wanna hook up" is a common expression used to invite someone to have sex, but in this context it is usually used sarcastically to mean "let's have sex," or alternatively "I'm going to hook up with someone," often when the person actually intends to go somewhere else. Top 10 Ways To Eat After Excess Grams a day | How to go on a diet? - How to go on a diet - In this article we are discussing, what are the ways of going on a diet. 7 Day Diet Plan for Women - How to lose weight fast - 7 Day Diet Plan for Women - How to lose weight fast - To lose the extra fat around the abdomen, thighs, buttocks, arms and legs, it is recommended to follow a 7 Day Diet plan, which will help you shed the stubborn fat easily. 9 out of 10 people have the misconception that losing weight is a simple thing. But to lose weight, we need to make some sacrifices in our diet.1. Field of the Invention The present invention relates to a seal assembly and more particularly to a seal assembly for use in an integrated circuit (IC) and/or a liquid crystal display (LCD). 2. Description of Related Art In a semiconductor fabrication process, one or more thin film layers are formed on a substrate. The substrate is then cleaned, and a film stack on the substrate is etched to form device patterns on the substrate. Some of the layers and/or device patterns are formed by a seal pattern having a slit. The slit is defined by a plurality of ribs and a film pad. As a result, when a force acts on the substrate and on the seal pattern, the slit deforms, and the deformation is directly transferred to the ribs. Hence, the slit is deformed with non-uniform deformation, and a seal line on the substrate is uneven. What is needed, therefore, is a seal assembly which can reduce or overcome the above-mentioned shortcomings.Thank you, San Jose! On April 6, San Jose, CA, became the first U.S. city to announce a commitment to a greenhouse gas reduction goal of 80% below 1990 levels by 2050. Other U.S. cities, including Denver and Seattle,
