What's New In?

Import the format of any external file into your drawings with a single click. New message: Instantly communicate with people around you and even add comments and annotations directly to your drawing. Task and Gantt Charts: Navigate the object hierarchy for drawings containing many 3D models and quickly see the hierarchy of your 3D objects. Use any template to create a customized task list. Revit Configuration: Configure AutoCAD to create and use geometry from the native file format in Revit and use the native API for Windows that is similar to the native API in AutoCAD. Other Improvements: Create powerful organization schemes (with existing FreeCAD object names) to organize your drawings. Extensions: Create and print a customizable document, including project and company logos, company logos and seals, high-resolution drawings, TIFFs, PDFs, and more. Create a PDF of your drawings or print a hard copy of your drawings. Add your logo to drawings in a PDF with logo strokes. What's new in AutoCAD 2020 Automatic Structural Safety Checking: In CAD, the safety of a drawing's structures is automatically checked when it is opened for editing. New Message Dialog: To perform a quick action on the same location in multiple drawings, you can create a shortcut to a drawing and share it with other users. New Segmentation Utilities: Add, edit, and connect 2D and 3D objects. Now you can create, edit, and break up any type of lines—for example, straight lines, circular arcs, elliptical arcs, circular segments, elliptical segments, parabolas, hyperbolas, hyperbolic segments, parallel lines, half lines, tangents, and catenaries. Create and Edit Shapes: The Create and Edit Shapes dialog box now displays an outline to help you select and edit the shape. Create 3D Geometry: You can now create 3D geometry from 3D surfaces. Creating 3D Shapes: You can now create 3D shapes from 3D elements. Text Extraction: You can extract text from drawings. Better Editing: You can navigate within and between 3D, 2D, and x,
