Bentley OpenFlows for Water Infrastructure . Part 6 of 20. Applicable products: WaterCAD, WaterGEMS. Next in line is the sixth part of a series about Bentley products for the design and monitoring of water infrastructure. This article series was published as part of the Bentley Partner Program. In it, we will talk about two software products that allow you to build and visualize models of pipelines and hydraulic structures. These solutions are used to plan the creation of systems for collecting and transmitting data in real time from sensors to
