If you're looking for something beautiful, Ice Clock 3D Screensaver is the place to be. It's a screensaver that captures the stunning power of nature's artistry through the ice. An app with a lot of thought and design put into it is sure to please the artistic type, especially if you appreciate those who are into the natural world and beautiful things in general. Features: - 3D Glasses supported - High quality 3D HD graphics and animation - Individual skins for the app and the clock - Sound support - Timer - Scheduler - Airplane Mode - Continuous play - Music Player - Fish under the ice - The clock, the ice and the fish are not tied to time - Multi-Monitor support - Pause option - Play option - High Quality Audio included - Notification center support - Create your own screensaver. Additional Information: If you're a fan of art, then this is one of those apps you definitely need to have on your phone. This is a screensaver that represents what life can be, especially if you're a fan of the natural world and beautiful things. It's easy to use and very pleasant to look at. The screen is divided into three sections: the clock, the ice and the fish that swim under the ice. While the clock displays the time, the ice glistens as it freezes you in place. The time and date are at the bottom, along with the sound options. The app is designed to be customizable to your taste, so if you're not a fan of this type of app, you can easily turn it off. The clock is responsive and the ice can move and change as time goes on. If you like to create your own screensaver, you can download it to your phone or tablet and then use it whenever you like. The app comes with plenty of options you can use to change the wallpaper, the sound, the appearance of the clock and much more. Ice Clock 3D Screensaver Reviews: A nice screensaver with a huge amount of customization options No matter what your taste may be, Ice Clock 3D Screensaver has something to satisfy it. No matter if you prefer an ice screensaver, a screensaver with a clock, or something in-between, you can easily adjust the app to fit your need. The clock is really responsive and the fish you can see under the ice are an awesome addition
