## Vodcatcher Helper Crack

You don't have to get your media center software (VDR and XBMC) updated on a regular basis to stay up to date with the Web. Instead of having to download all media ever added to the media center, Vodcatcher allows you to access the Web media directly from your media center by passing it through a clever proxy server called Vodcatcher Helper. The media is parsed and displayed by the media center software on screen. Your media center software never even needs to know that you are using a proxy server, all the media is streamed right into your media center. Users do not use Vodcatcher to access the Internet, they use it to access media (preferably video content) from the Web. Vodcatcher Helper Features: Download videos in various quality levels (for HD recordings) Download audio files with ID3 tags (one per media file) Download subtitles Download samples (PAL and NTSC) Download chapters (PAL and NTSC) Download -endless- episodes of TV series (PAL and NTSC) Download -endless- movies (for VDR and XBMC) Ability to install addon packages that enable additional video and audio functions.
