The cloud-based version of AutoCAD is called AutoCAD Online, and the cloud-based version of Revit is called Revit Online. These cloud-based versions are available as downloadable or subscription-based models that can be hosted by Autodesk and various third-party companies. The Autodesk Vault is a central repository and backup system for all of the applications offered by Autodesk and partner companies. AutoCAD is also available as a mobile app. AutoCAD mobile apps were originally created for iOS and Android operating systems, but AutoCAD LT is also available for the Mac App Store.
