I haven't had much of a chance to read up on Nicki before since I got this new habit, but according to Wiki: Jodie had been in a relationship with Robbie Williams since 2007. On March 16, 2007, they got engaged, but broke up later that year. Williams and Jodie made the news when they had a public breakup in August 2008, but they remained close. On September 9, 2009, Williams and Jodie got engaged again, saying their vows in India on October 24, 2010. They married in a ceremony on their property in the U.K. in October 2011. In July 2012, they welcomed their first child, a son named Teddy Theodore Edward Edgar Williams. On March 20, 2014, Williams and Jodie became grandparents. Jodie revealed her pregnancy with her son to People magazine. She gave birth to her son Teddy on September 22, 2014, in Los Angeles, California. In February 2016, Williams was arrested in Ayia Napa, Cyprus, on suspicion of driving under the influence, public drunkenness and possession of an imitation firearm. The incident took place near Williams' home. The police took Williams' phone so he could not contact Jodie, which is why she wasn't notified until he was released without being charged. Jodie wants to divorce him, as she is angry at his behavior. In June, a celebrity gossip website called TMZ leaked nude images of Jodie, which were published on September 11. Williams issued a statement apologizing for this infraction and seeking counseling for himself and his family. Source: Wikipedia Good for Jodie! I'm glad she's happy. I started reading up on Nicki Minaj, and I think a lot of her style is the same as a lot of female rappers. 6a5afdab4c
