To evaluate the outcome of the endovascular treatment of atherosclerotic changes of the internal carotid artery in elderly patients. Under local anesthesia, a common femoral arterial approach was used for performing 100 angioplasties in 87 elderly patients. For safety and effectiveness of endovascular surgery, an immediate postoperative angiography and a follow-up examination with duplex scanning of the internal carotid arteries were performed in all patients. During follow-up (5 to 49 months), no death occurred and no neurologic complications were observed in these patients. The endovascular procedure failed in two cases, one due to calcification of the internal carotid artery during the procedure and the second due to endothelial spasm during the postoperative period. What's New In VB-Reminder?

Turn your computer into an activity reminder tool. VB-Reminder is a lightweight portable utility that enables you to configure reminders and can display desktop notifications, as well as play sound alerts. Simple activity reminder The application is not complex by any means, as only a few settings can be modified, and all of its functions are very straightforward. You can specify when the alert should be displayed, insert a personalized notification text and enable or disable the audio alarm. However, the program does not provide multiple alert sounds for you to choose from. Sadly, it is not possible to set up multiple reminders or have them be repeated at specified intervals. Lightweight, unobtrusive application VB-Reminder can be sent to the system tray once a notification has been configured, so you need not worry about it getting in the way of your other activities. Moreover, the program can start the configured reminder automatically once it is minimized. This function is very helpful, as it makes it impossible to forget to activate the alarm before hiding the application. When the notification is displayed, the background is dimmed to ensure the reminder captures your attention. It also stays on top of all other windows, so it does not matter what you were doing at the time. Portable tool that can be carried on USB drives VB-Reminder does not need to be installed on your computer, which means you can place it on portable storage devices and launch it from any location, on any machine that meets the listed requirements. All in all, VB-Reminder is a no-nonsense, easy-to-use application that enables you to set up reminders in just a few seconds. It can display notification messages and play sound alerts, is fully portable and can be minimized to the system tray. This invention relates generally to solid state lighting (SSL) devices and, more particularly, to solid state lighting devices that are capable of being hermetically sealed and waterproofed. Solid state lighting devices, such as, for example, light emitting diode (LED) lights, are often employed for general lighting applications. LED lights are used as light fixtures and/or as stand-alone lamps. Most currently available LED lights, however, tend to be large in size, and thus, these LED lights are usually only suitable for large indoor and outdoor use. Another drawback of many currently available LED lights is their inability to be fully waterproofed. While a few LED lights are sealed or water-resistant, these LED lights are
