Field of the Invention The present invention relates to an image sensing device, such as a digital still camera, capable of freely setting the image sensing mode and the image sensing method, to an image sensing system, and to a computer-readable recording medium. 2. Description of the Related Art In recent years, digital still cameras have been widely used. In digital still cameras, a digital camera is generally adopted as an image sensor, and the image sensor converts a subject to an electrical signal. In this digital camera, the subject is focused and is imaged by controlling the focus and the position of an image sensing optical system, such as a lens. In order to control the position of an image sensing optical system with high precision, it is important to know the position of the image sensing optical system at each moment. To this end, the relative position of the image sensing optical system with respect to the image sensor is measured at predetermined periods. For example, Japanese Unexamined Patent Application Publication No. 2001-246596 discloses a technique which measures the

only times that they do hit is whenever Sony releases new firmware. However, it looks like this isn't the case with European PlayStation 4 gamers. As of today, you don't have to worry about the PlayStation Network being down. "Oh my god, thank you so much PlayStation. This is awesome," one Twitter user said. "I was so ready for a long day of [Xbox] OnLive. This is awesome," another said. Many of those who were downvoted on Twitter admitted their sadness over the delay, tweeting that they were excited to see what was next. PlayStation owners can make the leap with ease, as anyone can log in and access PlayStation Network. Just sit tight and wait for your favorite games. Nothing on this side of the Atlantic can come too soon.The Society for Postgraduate Medical Education (SPME) and the SP-Hosted Learning Case Conference have collaborated for the last five years to host the Specialty Board Case Conference at the Annual Meeting of the Society for Vascular Surgery in a cross-sectional manner.
