Category:ESET softwareHOMESCHOOLERS: We have some very cool advertisers on this website, and as VegNews continues to grow we are seeing more and more advertisers show up from across the web. Whoops! If you don't see your name below after uploading this product, you're missing out! We do not know of any other homeschool sites for animals. But, we are very happy to announce that we have secured a contract with Maddie's Meats and George's Eggs to supply all of their home school and preschool farms with a variety of animals! We will be able to watch, care for and educate children about the farm animals that they are raising as well as the farm animals that are being fed, and fed by Maddie's Meats and George's Eggs to Maddie's Meats and George's Eggs. The following is a listing of farm animals and their products. We are still slowly adding more animals and products, so this list may be updated. For Maddie's Meats, information on their farm is available at www.maddiesmeats.com, along with a catalog and a list of when supplies are available.
