## Hilti Ps 200 Software Download UPD

All intelligent functions of PS 300 Ferrosan are visible after transferring scan data to PROFIS Detection on PC. This software is part of your toolbox... and can be used with various scanner manufacturers (eg Tektronix or Tektronix Data). It helps when entering data into the database. After installing the appropriate software (see above), you can send data from any scanner to a PC for viewing and analysis. This allows you to do a quick analysis of the data.
