

The rental includes 30 days to start watching this video and 48 hours to end it after it starts. HD rental \$3.99. You can buy a monthly subscription for \$13.99. In this video, filmed in October 2014, I show how I create and build a wooden ship model for display at a children's exhibition. For this tutorial I used the following materials and tools Stage 1: Form preparation I used a 3D printer and a RepRap 3D printer to create the mold. I used a plastic RIP board (sealed on both sides) that I bought from a fabric store, with which I cut out the pieces to create the shapes.
