Category: Booting Category: Discontinued Microsoft operating systems Lost Memories ... Sure they can still be recovered in the fragmented parts of our memory, but there is a time in our lives when our memory works in reverse and we lose the narrative of our past. Laurie Anderson Introduction For two decades, Laurie Anderson has been at the forefront of the New Music scene in San Francisco. She has performed world-wide, showcased her projects across multiple media, and created scores of works for the theater, film, and electronic media. Recent projects have included the animated performance film, Abacus and the multimedia installation, Broken Toys. Her interests have centered around the interaction of sound and image, space and installation, and the ways in which music, performance, and other artistic activities can be both creative and political. The show is set in a coffee shop. A dozen chairs. 1 microphone. 3 turntables playing the same records. A handful of ambient sounds. Nothing to see. Just listen. And imagine. Imagine how we can begin to unpack our memories through the act of listening. The show is a way to consider the places that we have been, and the life we have lived, through the sound of recorded music. lost memories Our memory is a fragile thing. A series of anecdotes. Brief encounters. Fragmented anecdotes. We all know that. But the loss of that memory, of the narrative of our past, is what is so disruptive. We desperately long for a way to reconnect with our lost memories, to grasp at them, to make sense of our pasts, but that is no simple task. What does it mean to look at another point in time, to consider another way of life? Where are we? Where are you now? What are you doing? Who are you with? How can you hear the things you hear? There is an interesting debate that is taking place today, and will continue to evolve, about the possibility of memory. The conventional Western narrative has been for an individual to have a singular past, and then live in the present, worrying about the future. But the recent discussion about the Internet has highlighted the possibility of the collective memory. Laurie Anderson has been among the leading voices in the conversation about the collective memory, and her most recent work is a project that she began in New York City in the early 1990s.
