- Easy to use. - Works with a variety of color spaces. - Works with multiple color spaces. - Works with gradients and palettes. - Works with MAP, GRR and UGR files. - Saves the output to your computer. - Support for Gradient properties. - Multiple colorspace supported: RGB, HSV, SMY, RYB, CMYK, MAP, GRR and UGR. - Colorspace library for the color space: RGB, HSV, SMY, RYB, CMYK. - Supports the following properties for gradient and palettes: Center, Radius, OuterRadius, InnerRadius, Stops and Gradient. Works with external software libraries or toolkits: - The GradientLibrary is supported by the gradient color space. - The PaletteLibrary is supported by the color space and can use external libraries for palettes. - Works with gradients and palettes in Adobe PhotoShop, Adobe Illustrator and Adobe Photoshop, with InDesign, Flash, Flash Catalyst, Flash Builder, Flex, LiveCycle ES and other applications using the external color libraries. - Can also export your gradients and palettes to a variety of supported formats such as PSD, SVG, PNG, PDF, WMF, JPG, GIF, BMP, TIF, DVI, CMYK or WebP. Spectra Features: - Default ColorSpace is RGB. - Works with a variety of color spaces. - Works with gradients and palettes. - Works with multiple color spaces. - Works with MAP, GRR and UGR files. - Works with gradient properties. - Saves the output to your computer. - Supports multiple color spaces: RGB, HSV, SMY, RYB, CMYK, MAP, GRR and UGR. - Can edit gradient properties (see specification) - Can edit gradient and palette properties - GradientEditor supports up to 16 colors. - PaletteEditor supports up to 16 colors. - Support for Gradient properties. - Multiple colorspace supported: RGB, HSV, SMY, RYB, CMYK, MAP, GRR and UGR. - Colorspace library for the color space: RGB, HSV, SMY, RYB, CMYK. - Support for gradient and

\*Works with different color spaces including RGB, HSV, SMY, RYB, CMYK, and works with MAP, GRR and UGR files\*  
\*Grids (linear and radial) for all color spaces\* \*You can set the width of the grid\* \*You can set the height of the grid\* \*Snap to the nearest color on the grid\* \*Can move to selected color\* \*Duplicate selected colors\* \*Mix selected colors\* \*Trim gradient selection\* \*Select color to match on the grid\* \*Display colors directly on the gradient selection\* \*Select color to duplicate\* \*Select color to mix\* \*Add new colors to the palettes\* \*Generate and view PDF files of the palettes\* \*Edit colors\* \*Batch processing\* \*Save to your computer\* \*Save to Google Drive\* \*Save as Photoshop file (NOTE: only PSD files will be saved)\*  
\*Edit Gradients (delete, add, move, duplicate, merge)\* \*Create a gradients folder\* \*Save to your computer\* \*Save as Photoshop file (NOTE: only PSD files will be saved)\* \*Edit Gradients (delete, add, move, duplicate, merge)\* \*Save to Google Drive\* \*Save as Photoshop file (NOTE: only PSD files will be saved)\* \*View the colors for the color space\* \*View the gradients for the color space\* \*View the color palette for the color space\* \*CMD + Tab on the color space to quickly change color space or go to preview palette.\* \*Use the V key to toggle between the preview palette or the gradients\* \*Highlight the current color using the H key\* \*Use the W key to toggle between the preview gradient or the gradients\* \*Use the S key to toggle between the preview palette or the gradients\* \*CMD + W for quick preview\* \*CMD + Q to undo changes\* \*CMD + E to export changes\* \*CMD + A to apply changes\* \*CMD + D to duplicate colors\* \*CMD + R to rotate colors\* \*CMD + F to view the gradients\* \*CMD + T to view the preview palette\* \*CMD + CMD + U for quick undo\* 1d6a3396d6

Paint.NET is an easy-to-use image editing program for the Windows operating system. Paint.NET supports all popular image formats including JPEG, PNG, GIF, and BMP, and offers many advanced features. It supports layers, blending modes, and image filters. The program is very easy to use and is intended for the beginner or casual user who needs a very powerful and easy-to-use image editing application. Description: 3D-Labs is a Python based, GTK based graphics visualization tool for creating 3D and 2D graphs. It supports contour, surface, scatter, bar graphs, 2D plots and mesh graphs. It supports the creation and the conversion of meshes and supports curve, surface and contour equations. 3D-Labs supports the creation of plots as HTML documents. 3D-Labs can be used in education, research, industry, government and defense as well as in the development of graphical tools, software applications and websites. Description: Illustrator, the drawing application for print, web and multimedia, is available for Windows, Mac OS, and the Adobe Creative Suite. It provides an innovative interface for all aspects of working with drawings, including easy and direct access to layers, guides, and other drawing tools. The application is popular with both beginners and professional users, because of its ability to work efficiently, and its affordability and ease of use. Description: The GNU Octave suite of open source software provides a full-featured interactive computing environment with powerful mathematics and statistics functionality. It is developed and maintained by a team of volunteers. Octave provides high-level mathematical functions that are similar to those in Matlab, and it also offers low-level access to the C or C++ programming languages. Octave offers efficient matrix multiplication, common matrix operations, linear and non-linear equations, and statistics, linear algebra, and graph analysis. Octave also allows programmers to easily integrate C, C++ and Fortran code from within their Matlab programs. It can be used as a tool for teaching, research and education, and for creating algorithms and applications. Description: GraPhPad is a graphical front-end for the GNU R statistical language. It allows interactive editing and manipulation of R objects from your graphic software. It provides an integrated shell for R, graphics support for R graphics, and integrated plotting support for R graphics. It also offers an API to manipulate R objects from other programs. Description:

What's New in the?

Spectra provides a set of interesting tools to create and convert gradient and color palette files. Features: - Generate gradients and palettes, in HSV, RGB, CMYK and SMY color spaces - Export to PNG and EPS format - Generate, edit, convert and save multiple files - Works with a variety of file formats, including MAP, GRR, UGR and RYB Keywords: - gradients - palettes - colors Getting started: Use the link below to download Spectra directly to your computer, or get it from your Eclipse or Market place client.All Star Pizza is located at 2920 Hwy 100 S., Suite 100, in the Junction City Mall. We serve the whole family. Our menu features every imaginable pizza, salad, and entree. We serve breakfast, lunch and dinner. We are open daily from 6am to 11pm. Call 417-837-2937, email info@allstar-pizza.com, or All Star Pizza is located at 2920 Hwy 100 S., Suite 100, in the Junction City Mall. We serve the whole family.
