friends list

### **What's New In?**

>> Create your own group of friends: check  
which friends are online, and see what they  
are chatting about. >> Add friends from  
Facebook, Twitter, Google, AOL or ICQ  
accounts. >> Quickly reply to anyone >>  
Automatically forward messages >> Create a  
public profile >> Change your status and  
message publicly >> Search for keywords

---

and attach images to emails >> Collect all online friends' personal information >> Start a chat session with a friend >> Share message with your friends quickly >> Control message visibility settings directly on Twitter >> Edit message text directly in Gmail >> Automatically forward a message to your Gmail account >> Use any other keyboard shortcuts >> Automatically display message preview (with replies) >> Share pictures with smileys in email >> Send messages via Facebook and Twitter >> Configure your email accounts easily >> Sender name customization >> Load external accounts

Daphne 1.0 Daphne is a browser used to browse websites, news, and email. It

---

supports RSS and IRC, and it's a great solution for when you simply have to visit an Internet service. It's also possible to use Daphne as a chat client through which you can communicate with people with other IRC-compatible software. Daphne's features: >> Full offline browsing >> Customizable interface (icons, iconsets, themes, colors, windows, etc) >> Download the whole content of the page >> It supports attachments >> Multi-tab browsing >> Automatic URL/FTB/RSS search >> Search engines (It uses Yahoo, Google and Google) >> IRC full support (include channels, nickcolor support, irssi option, etc) >> Backup/restore history >> Tabs

---

rearrangement >> Save/load tabs >> Power saving (save RAM) >> Source code available >> Last updated on 2004-02-16 Tresor 2.2

Tresor is a fast and simple file manager with an interface similar to Windows Explorer. It has an intuitive user interface, with a specially designed toolbar, and it's easy to switch between various file management features. Try out the Tresor demo and see for yourself! See the screenshots below to get a better idea of what Tresor is all about: The file browser supports browsing the different drives found in your system. You can easily search for files and folders.

---

## System Requirements:

Windows - Mac - Linux CPU: Intel Pentium II or higher CPU Operating System: Windows XP, Vista or higher RAM: 128 MB Graphics: OpenGL Version 1.3 compatible The game will be built using Open Source 3D Engine, which is Quake 3 Arena Engine, the very popular 3D game engine and which is used in many third party games for PC and other platforms. We are a group of 4 student developers and working as a team on this project.
