When the user pinches the tableview, I would like the tableview to shrink to fit the screen and when the user pinches the tableview again it should enlarge. I've been trying to work with the delegate function in which I have used CoreData to retrieve the largest width and height but I think I am heading in the wrong direction. I've included this image of what I would like to achieve. A: Give this a try, in viewDidLoad or ViewWillAppear //redraw the tableview width/
