Ease of Use In its early history, Photoshop was only available for the Mac and used a Macintosh mouse. Over the last 10 years, Apple and Adobe have created a plug-and-play system that permits many photographers to use Photoshop on their iMacs with the exception of Macs that are over 10 years old. Unfortunately, most recent computers with integrated video make the older Photoshop DVD version incompatible with the current version of Photoshop. In the past Adobe offered a standalone upgrade, but this is no longer available. Photoshop is available on Macs, PCs and Unix systems. The latest Mac version of Photoshop comes with two versions of the program: Standard and Extended. Extended allows users to add a number of new features, but it will not work on Intel Macs. The Standard version is what most people use. It comes with the features and controls that most photographers need. As of this writing, Photoshop CS4 has been released. The reason a new version is released so quickly is that the number of features grows rapidly. When a new version is released it contains many new tools. Photographers can usually download an update online and install it easily. While Photoshop is a powerful tool, it is also a complex program for many. Over the past few years, tutorial sites have sprung up that provide insight into Photoshop's features. These sites can help beginners gain the skills and confidence to use Photoshop with little effort. Learning Photoshop If you're new to Photoshop, the first step is to learn the layers, which are the basic building blocks of layers. Layers are where most of the work happens in Photoshop. You might be surprised to know that Photoshop's Layers Panel has many more features than you might have originally thought. The best place to start learning Photoshop is the Photoshop CS4 Help Guide, which you can download free from Adobe. The Help Guide is very thorough and breaks the program down into pages that clearly point out each new tool. You can also find simple tutorials on YouTube that provide a great starting point. Getting Inspired Knowing Photoshop is a great starting point, but it is not always enough. It is important to get inspired. Photoshop and the other Adobe tools offer a blank canvas that photographers can use to their creative advantage. In the following paragraphs, we have listed a few popular websites that offer Photoshop tutorials and inspiration. Take some time to visit some of these sites, and you will find many helpful tips and

A 7-Eleven clerk in Utah has been fired after he said he would not serve a customer because he was gay. Sean Meek reportedly made the remarks to a Muslim customer at a store in North Salt Lake. The Utah Pride Center said customers were notified that Meek had been fired through Twitter on Saturday. ADVERTISEMENT Meek made the comments after rejecting a man's request for a drink. "You can't get into the store now. It's Muslim holy day," Meek is accused of saying. "I'm gay," he reportedly added. Employees at Meek's store reportedly told the customer that he could request a different drink, but he declined. Meek, who has worked at the store for three years, was seen on video arguing with the man. "I'm doing my job," he says. ADVERTISEMENT "I know it's your job, but you're gay," the customer responds. Meek reportedly asked for the man's identification and was dismissed. The customer later posted a YouTube video of the incident, which has since been viewed more than 830,000 times. ADVERTISEMENT Meek posted a message on his Facebook wall apologizing for his actions. "I was wrong. I do not agree with the Muslim's holy day of anytime due to their beliefs. I do not know this person very well," the message said. ADVERTISEMENT Meek's manager told KSL he was fired on the spot for failing to treat customers with respect. "I didn't say anything racist. I was trying to accommodate him and he wasn't being accommodating to me," the manager said. The Utah Pride Center said that Meek's firing was a positive message. ADVERTISEMENT "It serves to remind the LGBTQ community and allies that there are places in our community and in our society that are anti-gay and that they should not be acceptable," a statement read. The center said that a local group scheduled to serve as the venue for an upcoming drag queen parade was called off in part because of Meek's comments. Watch this video report posted online by
