Fifa 22 Serial Key has also seen a number of “visual enhancements,” including “FIFA Interactive Player Comparison Tools,” improved player face, player appearances, third-person and camera viewpoint animations. Here are screenshots showing a number of new features of Fifa 22 Serial Key, courtesy of the game’s trailer and screenshots. 1. New Features “HyperMotion Technology” The new motion capture

engine enables more accurate on-ball controls in team gameplay, and more refined player control in free kick situations. The new engine is enabled across all game modes, including FUT and Training Mode. “Matchday Experience” Choose between the traditional or the new “Matchday Experience” in Career Mode. The new menu option includes more control over matchday experience that helps players in their return to play progression. Players now have a “Pre-Match Playlist,” which has an order, similar to watchlist functionality in real matchday experience. “FIFA Interactive Player Comparison Tools” This new feature allows users to create player comparison charts and match statistics based on objectives and tactics. The player comparison tools will make comparison of players easier, and allow you to narrow down your search for players based on position, experience and country. 2. Visual Enhancements “FIFA Interactive Player Comparison Tools” Groups of cards are used to present “Pre-Match Experience” and “Playground Experience.” “Player Profile” Players now have their own sub-sections in their matchday experience. “Replay Opportunities” are now available to assist players in reviewing their performance, including ways to improve technique, and better understanding of team tactics. “Player Appearance” Players have been given a fresh new face for their profile images. “Player’s Face” Prohibited Faces are now shown on players. Any player who has their “face” changed will be changed in FUT. “Player Summary” Players can now go deeper into their career data to see the evolution of their statistics over the years. “Team Kit” Players’ kits have been cleaned up and they look more authentic.
