Call Of Duty - United Offensive PC: 85.Q: How to create new events using Vue.js In Vue.js, new events can be created using new Vue({ el: '#app' }) However, there is no such function on the Vue object for changing event names. For example, I want to do this this.$events.foo = () => {} To do this, I have to do this instead this.foo = () => {} I want the same for other custom events A: You can just overwrite the prototype method (property) if you really want to modify the events object. Vue.prototype.foo = function() {}; But, instead of doing it like this, I encourage you to use "events-as-properties" and bind the handler to the element instead. Vue.directive('events-as-properties', { bind: function (el) { el.foo = function() {}; el.click = function() { console.log(this); }; } }); d0c515b9f4
