Delcam PowerSHAPE 2009 Portable.Q: How to find/replace with sed/grep/awk in a Mac OSX terminal? I've written a simple bash script to edit a JSON file in place. I've recently been asked to do the same thing using Mac OSX Terminal, but I've only been using bash scripts for Mac OSX so far. A little research lead me to the use of sed, but I have no idea how to use sed on a Mac (or if it is even possible). The bash script I have so far is: #!/bin/bash function replace () { replace = ` sed -i '/appPermissions/{s/\V\\Vg; s/"\\"/g; s/&\V\\&/g; s/\V\\Vg; s/[\\]/g; s/]/]/g; s/\^\\^*/g; s/././g; s/^\\V\\&\\Vg; s/^\$\\V\\&\\V/d0c515b9f4

Field of the Invention The invention relates to a novel polyisocyanate. More specifically, it relates to a novel adduct of a polyisocyanate and a specific polyethylenimine which is useful as a blowing agent, a foaming agent, a solvent and the like. 2. Description of the Prior Art Polyisocyanates which generally are obtained by a phosgene method or an aqueous method are mainly used as a blowing agent for foaming plastics. However, due to the drawbacks of phosgene (the high cost of the raw material, the high cost of the facility for handling the phosgene and the hazardous nature of the compound) there is a growing demand for polyisocyanates produced by an aqueous method, e.g. by an aqueous polyisocyanate dispersion process. The aqueous method has other drawbacks as well. For example, a considerable length of time is required to effect a dispersion reaction by which a polyisocyanate is prepared. Such disadvantage becomes more serious as the polyisocyanate to be produced becomes more viscous due to the increasing of the molecular weight thereof. In addition, a substantial amount of water is present in the aqueous polyisocyanate thus prepared.Q: FFMPEG convert video files to H264 from command line How to create h264 video (that will be able to play in android device and some other multimedia devices) from a video file (like mp4, mpeg2, avi and if possible any format), from a shell script? I googled a lot and I found FFMPEG. To install FFMPEG in ubuntu I am doing this sudo add-apt-repository ppa:mc3man/trusty-media sudo apt-get update sudo apt-get install ffmpeg But I am not able to get ffmpeg working. It says the packages are in an unauthenticated PPA and i have to add the keys. But I didn't see any keys in PPA. Now after a lot of time I found some tutorial and I installed ffmpeg with some other dependencies. The command lines I used

Category:1982 births Category:Living people Category:People from Chengdu Category:Chinese musical instrument makersQ: Android: How to get Google MyEtherum wallet addresses I'm using Google's MyEtherum wallet and trying to retrieve all the wallet address's as shown here: I'm getting the Etherium addresses with the following code: String address = getEtherumWalletAddress(); String[] addressParts = address.split(":"); Now how can I retrieve all the wallet address's in case of multi wallet addresses. Thanks. A: Try something like this: String address = getEtherumWalletAddress(); String[] addresses = address.split(":"); for(String addressPart : addresses) { String[] parts = addressPart.split(":"); } The former professor of Scientology's Celebrity Center, Marty Rathbun, has described a "staggering" plan by the organization to bulldoze Fort Harrison in Hemet in order to build a private golf course. Fort Harrison was built by the United States Army as a training camp and is located in Hemet, the city within the city of Beverly Hills. Fort Harrison was originally named in 1853 after General "Fighting Joe" Hooker who was known for repelling Confederate attacks during the Battle of Gettysburg. The Missionary Army of the Pacific bought the former Army camp in 1929. The 1940s-era real estate was sold to the Church of Scientology in 1965. In an interview with The Clear Channel, Rathbun said that the Camp contained a "tower mill" that was used to make paper and was manufactured by the Strategic Scientific Reserve. Rathbun said: "The church now plans to build a private golf course on the property in an attempt to generate more money from the 100 acres of land." He added: "While this controversy does have some merit, the bigger picture shows the church attempting to take over the city of Hemet and force its residents to not only live in the city of Scientology, but also work for the church." Rathbun claims that the church plans to raise the house tax to \$200,000 per year and will force residents to lease equipment and pay the church a \$100
