What's New In?

You shouldn't have to pay a fortune to buy the right tools. If you are looking to keep up with your health and fitness goals then you should check out DietPower. This application provides you with a platform that will track your diet and exercise progress on a daily basis. Start by logging your food intake and exercise plan. To do so you will need to answer 3-5 questions and add some information about your lifestyle. After this you should sit back and relax while the application does its thing. It will provide you with a plethora of nutrition information that will allow you to stay on track with your goals. DietPower Features: - Food Log - Diet Analysis - Weight Tracker - Easy to Navigate - Progress Tracker - Health Score - Exercise Tracker - Training Score - Great for: - Weight Loss - Maintenance - Training DietPower uses a weight based system to estimate your daily calorie requirements. It is then easy to identify how many calories you should take per day to lose or maintain weight. The easiest way to accurately calculate your calorie needs is to log your meals and exercise in the app and it will work out the calories from these items for you. The main drawback to DietPower is the lack of integration with other systems. This means that no other data can be logged into DietPower without manually entering it yourself, unless of course it is an associated app. DietPower is for people who have been trying to lose weight for a long time but were unable to make the jump because they lacked the tools to do so. This is where DietPower comes in, it allows you to keep track of your meals and exercise at a daily basis so that you can work out the calories you need to take every day in order to maintain a healthy weight. You will need to enter the food and exercise for a week to create an average but this will be updated frequently with the rest of the weeks, if you check out the tutorial. Hope you enjoyed our review and find it useful, do not hesitate to ask any question in the comments. 6 * s . 3 * s C o l l e c t t h e t e r m s i n - 2 6 5 + 2 7 1 -
