Lingo Vocabulary Trainer is a vocabulary trainer that helps you to learn a foreign language. This is a translation of Lingo, original English product. Lingo was written to automate the task of learning foreign languages but as it grew in popularity, it's scope has been broadened to include vocabulary trainers like Lingo Vocabulary Trainer. Lingo covers at least 900 subjects out of a total of 1500 known languages, offering translation, description, keys, vocabularies, phrase-books and other useful resources for modern languages and classical origins. Lingo works by combining a dictionary engine with an intuitive and powerful learning engine. You simply point to a word and Lingo responds with the translation. You don't need to know anything about Lingo to learn a language with it. You don't have to bother with grammar rules or the tone or spelling of an unknown language, you simply plug and play. Download the Lingo Translation engine and start discovering ancient languages like Latin, Greek, French or Spanish and many others today. Lingo is a free word translator, which is not bound by language rules, grammar or spelling. Download and start enjoying your first translation today.
