You can't just add shortcuts to everywhere that is not on Windows Media Center. Please remove them from my desktop. I need to be able to unclick these. 2. The program does not have a Hide function to remove the icon from the taskbar. 3. The program's wndoze force, or at least the default to be used, is 12 and not 6, which is what's shown on the first three functions. Please set it to 6 instead of 12. It's also shown in the tray as 12. 4. The program does not automatically close after being minimized. This needs to be added. 5. The close, maximize, and minimize buttons are too small to be seen on each tab. This needs to be fixed. 6. Show Desktop fails when I don't have a mouse. 7. I cannot add a hotkey to make the program open up properly and close down. (If you have the ability to get this working, that would be a great help.) The author has not answered my emails. That's because they do not exist. Go get another program. If you are really interested in this program, you'll figure it out. Posted 7 years ago Guest Since when does a program have to be free in order to be useful? Enjoyed this comment? You can subscribe to email updates or weekly RSS feeds.-type="fig"})). There were no signs of inflammation or hemolysis, and hematology test results were normal. His hemoglobin dropped to 4.5 g/dL
