I have a few followers on Twitter and one of them mentioned that he used some sort of shady robux generator to get free robux. I checked the app which he used and it seemed to be a legit tool. I checked the Roblox website and could not find anything suspicious at all. Is Roblox really safe from robux generation tools? Is the app which he used to generate robux safe? If it is so, what he mentioned is a scam and not anything true. I have a few followers on Twitter and one of them mentioned that he used some sort of shady robux generator to get free robux. If you want to check it, go to game account and you will see that it says that they spent some credits from your account on a few days. When you close the game, they will

ask you to buy credits to return the stolen credits. Second, if they purchased them, they can sell them in the market. I'm not sure whether you can detect that, but I think it is more easy to do that than before. Third, I think they have paid some amount of money for the credits. That's why it is called "gift". If you try to use them, you will get banned. At last, if you want to detect whether this is a scam or not, you can simply try it. When you go to "Where Credits Used", you will get a new robux balance that you've used. You should be careful. Edit: I don't understand why someone is so bored to create this thread. Please read the READ ME file before downloading this download! This are the instructions: Download this APK File, extract it, go to your game folder, the folder that has the 2 files: Game.apk and CSC.apk (I'm uploading files here: PROOF1.zip2) Write the APK File in that folder. PUT THE PROJECT YOU BROUGHT BEFORE ON YOUR DISK WHILE IN THE GAME. YOU CAN USE KEEPASS 2 OR TOUCH ID. GO TO THE NEXT SECTION. (NOT READY YET) Open the Game menu go to options and select link in game. In this link you will see a web address. The number in the end of the link is your account ID. Make sure that it's an ID with the colour RED (press the red button on your keyboard) If it's not, press re-link. Click it. Now you have an account ID WITH THE COLOUR RED. You will need this in the next section. Go to the next section. Also I recommend adding the ID with the colour RED on the web page. Save it on your phone or pc. It should be there ready to be used. Close the game and press "quests" game menu and select "add to play." Turn on the game and click on the numbers. You will have the games with Robux. You will probably need a robot first. That is it.
