## Whmsonic Shoutcast Admin Pro Nulled 14 [REPACK]

**Download**

You can also execute actions in bulk per customer or per category. For example, adding categories or IPs can be done automatically, up to hundreds of customers per minute with WHMSonic. You can also have an action per account that can be scheduled, such as changing/adding/deleting accounts or changing/adding/deleting accounts location/country/state/city/province/IP, among other account and category changes. These actions are one click away with WHMSonic. We have a simple and easy to use forum within WHMSonic. You can quickly post the messages, vote on them, reply to/comment, report posts that violate the forum rules, and flag posts. You can also view the posts by users, category, limit/date/ip and more,

---

through the application interface. It is one click away with WHMSonic. You can install WHMSonic and run the web apps within your cPanel account instantly. You will not need to change anything else in your cPanel to use WHMSonic. Right click on the WHMSonic icon, then click the Import button and the apps will be imported in your cPanel account.

WHMSonic can be installed on multiple locations in your cPanel account, such as on your root ([www. website.com](http://www.website.com)), on your reseller account, on the client, and on the control panel side (ports). WHMSonic is also highly modular. You can choose to use WHMSonic on the web apps or on the control panel side (port) of your cPanel account. You can also install WHMSonic as a WHMCS module and can be used on the web apps or the control panel side. All these modules are under the root user control.
