

# All you need to know about Astrology origin - The history

There are some celestial bodies and terrestrial events in human life, which are believed to be completely based on the astrology chart of the person. Astrological beliefs hold a very special place in human life since the [astrology origin](#). Astrology holds an influencing power on human beings, their personality, and also the nature of the person.

## Traces of astrology in history

The traces of astrology origin were very first seen in the 3rd millennium before Christ that has their roots in calendrical systems, which were commonly used to forecast the movement of celestial bodies in the astrology chart of the people.

However, before the 3rd millennium B.C. also astrology and its practices were used by the people. But at that time, proper astrology was not discovered. During that time, different cultures discovered and were using their own form of astrology and making predictions with the same.

# Here are some different cultures where astrology was used before the 3rd millennium B.C.:

- 
1. Babylonian
  2. Islamic
  3. Hellenistic
  4. Western
  5. Jewish
  6. Hindu
  7. Chinese

Initially, astrology was used to develop the field of astronomy in the world. It was accepted by the political as well as the cultural circles of the world in the historic time as well. Also used in different types of fields such as Alchemy, meteorology, and medicinal fields.

In history, astrology origin traces were also seen in the caves and walls of ancient times. Where people drew some celestial bodies to denote some predictions and terrestrial events were also forecasted with them. This was done almost 25,000 years ago. Just imagine, how old astrology and its practices are!

## **Change of astrology theories**

However, later when astrology started evolving to a greater extent, such as heliocentrism was introduced, the theoretical basis of astrology started vanishing. Later, a lot of academic theories were discovered in this and ultimately it was referred to as pseudoscience. In fact, as per the empirical investigations by scientists all across the globe, it has also been discovered that the productions, which were made on the basis of it, were not correct.
